

Exhibit B - 36

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Steve Lockwood

1010 Meadow Drive, Owosso, MI, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

The expected funds per person seems to be inadequate given the yearly income of this large corporation.

Personal note to The Honorable Thomas W. Thrash Jr.

Equifax collected personal information about me without my consent and with no payment to me. It then monetized that information to any party that subscribed to its services without any amount of vetting. After decades of this activity, often disadvantaging me in my personal and professional life, Equifax's woeful security was breached and my personal information, along with 147,000,000 other Americans', was exposed to anyone interested. Afterward, I've spent significant time as well as money freezing my credit with all credit bureaus, having to unfreeze it at a cost with one or more agencies every time I've had to make a major purchase or subscribe to a new service. The same company was again breached recently because it left a website with client information, reachable to anyone on the internet, with an administrative login and password of admin / admin.

This company made millions and has compromised me and they don't have to pay anything for their mistake? It's ridiculous how much these companies get away with. And the little guy gets screwed every time. We depend on these suits and the judges to look out for us.

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Melissa Richards

464 blue ridge dr Dayton oh, 45415

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

My information was leaked by a company that I trusted and after more people than realized filed for compensation due to their error with our personal information. They decide that they want to keep their profits and give us a smaller settlement. That makes me question their ethics and lose all trust in them again because they still have not stated publicly how they are gonna make sure this does not happen again!!!!

Your Honor, The settlement that is being proposed is not meaningful in anyway to those of us in the general population who had our information breached. Equifax needs to take full responsibility for their negligence. They are a multi billion dollar corporation and need to make a serious effort to make amends with those of us whom they have wronged. Please reconsider allowing the current settlement to go through as it stands and thus allowing Equifax to get away with this without truly compensating those of us who had our information stolen, by insisting Equifax pay a real amount That will cause them to think twice before allowing another breach

Personal note to The Honorable Thomas W. Thrash Jr.

The impact of the actions of Equifax is more than just an annoyance. These calls actually affect people's lives. The phone has become at times an instrument of harrassment and dread. My older parents have recently discontinued their land line, because it is so engulfed in spam that it has become a fearful thing for them, and now they are less secure in their home as they cannot reach out as quickly in case of accident or sudden illness. Equifax's bullying tactics should be punished strongly.

Thank you.

Equifax has divulged Social Security Numbers of how many people and have caused a lot of us undue distress due to having to try and protect our information. Some of us even have had Identity Theft issues due to their negligence. I believe it is time we stand up to the large companies that do what they want and make them responsible for their actions. It's time to help the working class people of this country, not slap the hands of the wrong doer Corporations that do what ever they want.

Personal note to The Honorable Thomas W. Thrash Jr.

My data was severely compromised in the 2017 data breach. It lead to several months of vigilance and worry to ensure any damage done by the leak was as minimal as possible. The settlement for the negligence shown by Equifax and the impact it has had on my life is a choice between a small cash amount that would not even buy a gallon of milk, or monitoring from Experian, which also had a major data breach problem. This settlement is in no way fair, adequate, or reasonable and needs to be revisited.

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Marjorie Johnson

712 Cauthen Street, Rock Hill, SC, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☐
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I believe an injustice has been done by this breach of personal information being sold without our consent and then when discovered Equifax is not willing to try and compensate for the damages done. No amount of money can pay for possible damages done to the litigant's credit, but at least give enough for us to be able to pay to get it rectified. A lot of us already have credit monitoring in place since this happened, so don't need them to do that. But trust was placed in this company to do the right thing by the citizens and they failed, that should be worth more than \$10, just to show an sign of remorse if nothing else.

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Walter L Clark Jr

326 Forest-Hill Drive, Youngstown, OH, 44515 USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I object to this settlement on the grounds that the breach may cause financial burden beyond the settlement amount. I also dispute the credit monitoring from a company that has just had a breach of information.

Equifax controls out lives, and in some cases, livelihoods. They have unfettered control over our credit, and make it impossible to dispute or fix errors. For them to want to settle this data breach with \$10 (or less) per person, is laughable. A few million dollars is sofa change to this company. They need to understand what they allowed, and what they did in the aftermath, was wrong; the only way to help them with that is to hit them where it hurts....their giant bank account.

Thank you for your time.

Personal note to The Honorable Thomas W. Thrash Jr.

Your honor, I am using the free credit freezes that the federal government forced the 3 main credit reporting agencies to provide after they failed so miserably to protect the American peoples' credit and personal information. I don't need to pay for a credit watch. So I shouldn't be unable to claim a monetary settlement. My personal information was released. And now I'm hearing that the amount of the monetary settlement may end up being as low as \$1.30 per person?!? The awarding of punitive damages is to punish a company for egregious wrongdoings. The total amount of this settlement wouldn't even make a dent in the company's balance sheet. Please reconsider raising the total amount of the judgement and the rules regarding who can claim it.

Case No. 1:17-md-2800-TWT

Francine Ex

3 Azar Street, Kfar Sava, Israel

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

A \$25 payout is an attempt to shut down the process, assuming most of the injured parties will not bother to continue for such a meager sum. I think that Equifax should be held accountable for a more significant amount of money.

A \$10 settlement is laughable for a company that is making millions to billions of dollars off of our personal data. We trusted them to keep our information secure, especially since they have so much of it, and we have virtually no control over them, and they did not. This caused all kinds of problems for people, some small, some serious. Thank you.
